

Cyqure India Private Limited

September 04, 2025

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Non-convertible debentures	3,000.00	CARE BBB-; Stable	Reaffirmed

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

CARE Ratings Limited's (CareEdge Ratings') analytical approach is based on, estimation of cashflows arising from monetisation of underlying insurance companies, supported by liquidity cover, escrow payment mechanism, and legal structure of the transaction, among other things.

Proceeds of the rated issue were utilised towards Cyqure India Private Limited's (CIPL) contribution in Aasia Enterprises LLP (AELLP, where CIPL had a 97% partnership interest), which, utilised proceeds for acquiring 24.95% stake in Reliance General Insurance Company Limited (RGIC), a 26% stake in Reliance Nippon Life Insurance Company Limited (RNLIC), and a 26% stake in Reliance Health Insurance Company Limited (RHIC). RGIC, RNLIC, and RHIC are group insurance companies of Reliance Capital Limited (RCL), which have been acquired by IndusInd International Holdings Limited (IIHL – a Mauritius-based entity). IIHL is a global business (Category 1) licensee company incorporated in Mauritius. The principal activity of IIHL is investment holding, whereby it holds shares in different companies spread across sectors.

Rating reaffirmation of non-convertible debenture (NCD) of CIPL (a company promoted by Ashok Hinduja and Family) hinges on a structure, where rated debentures are secured by first ranking security charge on all assets including future cashflows of CIPL and AELLP arising from distributions in the form of dividend, repayment of shareholder loans or sale proceeds from assets/businesses held. Proceeds received by AELLP from sale of shares held in underlying insurance companies will form part of the security offered to debenture holders. The rating continues to be supported by presence of put option in favour of debenture holders. Under the terms of put option, IIHL holds unencumbered listed shares aggregating to at least ₹2,500 crore. Estimated cashflows from monetisation of underlying insurance companies and liquidity cover provide sufficient asset cover for servicing rated instruments in CareEdge Ratings' opinion.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:

- Additional cashflows supporting accelerated debt repayments.

Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:

- Non-adherence to pre-defined covenants - financial, shareholding, and other customary covenants as defined under executed debenture trustee deed.
- Delay in monetisation of company's stake in underlying insurance companies

Analytical approach:

The rating is based on, inter alia, estimation of cashflows arising from monetisation of underlying insurance companies. This is further supported by liquidity cover, escrow payment mechanism, and legal structure of the transaction.

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

Outlook: Stable

The outlook is 'Stable' considering estimated cashflows from monetisation of underlying insurance companies and liquidity cover, which provides sufficient asset cover for rated instruments in CareEdge Ratings' opinion.

Detailed description of key rating drivers:**Key strengths****Strength of transaction structure and escrow mechanism**

The rating of NCDs factors in structure, where debentures are secured by first ranking security charge on all assets, including future cashflows of Cyqure India Private Limited (CIPL) and Aasia Enterprise LLP (AELLP; where CIPL has 97% partnership interest) arising from distributions in the form of dividend, repayment of shareholder loans or sale proceeds from assets / businesses held. Proceeds received by AELLP from sale of shares held in underlying insurance companies will form part of security offered to debenture holders. Cashflows shall flow into an escrow account, which shall be utilised for repayment of debenture holders.

Some key covenants include:

- IIHL to indirectly retain at least 51% of shareholding and voting rights/ control over IIHL BFSI (India) Limited, an indirect SPV of IIHL (held 100% by IIFL BFSI Holdings).
- IIHL entered put option agreement, on exercise of which, IIHL shall be obligated to purchase NCDs issued by CIPL.
- IIHL shall hold unencumbered listed shares (having a value of) or cash of at least ₹2,500 crore.

Comfortable cover for debenture holders

The security cover for debenture holders includes proceeds received by AELLP from sale of shares held in underlying insurance companies having book value at ₹3,200 crore and fair valuation of combined stake as on March 31, 2025, at ₹5,649 crore. CareEdge Ratings derives comfort from key covenants mandate of resident shareholders to maintain minimum 51% stake in CIPL in the future, liquidity of ₹2,500 crore being maintained in the form of unencumbered listed shares at IIHL level and the promoter's demonstration of support to their group companies in the past. This is additionally supported by put option on IIHL in favour of debenture holders.

The rating is based on estimation of cashflows arising from monetisation of underlying insurance companies; RGIC and RNLIC, presence of liquidity cover, supported by the escrow payment mechanism, and legal structure of the transaction. Estimated cashflows from monetisation in underlying insurance companies backed by liquidity cover provide sufficient asset cover for rated instruments in CareEdge Ratings' opinion.

CareEdge Ratings derives comfort from promoters' status as well-known industrialists and high net worth individuals. Promoters have been involved in successfully running and supporting companies with a track record of turning around acquired businesses and timely repayment of debt taken.

Key weaknesses**Susceptibility to delay in envisaged cash flow generation**

Cash flows required for repayment of rated debentures are primarily expected to be generated by monetisation of insurance companies, RGIC and RNLIC. Proceeds from stake sale/ divestment at either holding companies or refinancing rated debt shall

be utilised to repay CIPL's rated debentures. Since CIPL does not have operating cashflows, delay in cash flow generation from monetisation might impact timely debt repayment, since monetisation of assets depends on market forces.

Liquidity:

Not applicable, since there are no cashflows in the company and rated debt is zero-coupon bond.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
